Acetal Air gun - adjustable with Zinc nozzle SV2121-L

SILVENT 008 L: fitted with a new generation of zinc Laval nozzle. A mix of divergent slots and holes surround the central Laval orifice, providing quiet, powerful and laminar air flow. This safety air gun is especially suitable for sweeping large areas or general-purpose cleaning of parts and machines. The fin design of the nozzle prevents direct contact with skin. Fully complies with the noise limitations of the EU Machine Directive and OSHA safety standards. Patented.

Technical data

Item number	720218
Air consumption	15,2 Nm ³ /h
Sound	77,5 dB(A)
Blowing Power	2.9 N
Material	Zinc
Air pattern	Laval
