Magnetic Tool Holder

Strength up to 150N (15kg)

This magnetic tool holder is designed for holding most pistol type tools such as impact wrenches, drills and screwdrivers etc. and impact sockets. The special magnetic structure can firmly attach to ferric surface up to 15kgs. It can easily hold one impact wrench, four impact sockets and other tools like screwdrivers. You can also screw the holder on nonferrous surface with two included screws.
