Acetal Air gun - adjustable with VA-Flat nozzle SV971

SILVENT 0971: fitted with a small flat nozzle of stainless steel, providing very special characteristics that are perfect when you want to blow with a somewhat narrower air stream. Capable of withstanding excessive mechanical wear and suitable for use in most environments. The 0971 safety gun offers the same advantages as the other 007 guns - including variable and booster positions, top and bottom connection with safety valves and a Softgrip handle. Fully complies with OSHA safety regulations and EU Machine Directive noise limitations. Patented.
