Replaces open tube **Ø 4 mm**

Noise reduction **60 %**

Air-/ cost savings **30 %**

Silvent 701 A

Adjustable wide nozzle

SILVENT 701 A: an adjustable variation of 701. Adjustable blowing angle allows up to 30° regulation from the centerline. The time required for installation and fine tuning of the blowing angle is decreased considerably as no fixed pipes need to be moved for adjustment. Regulation of the blowing angle is often necessary in machines where the same manufacturing process is used to produce different parts. Otherwise, the same performance as 701.

Technical data

Item number	717319
Air consumption	21 Nm³/h
Air connection	1/2 "
Sound	82 dB(A)
Blowing Power	3.2 N
Dimensions LxWxH	Ø 25 x 29 mm
Material	Stainless Steel
Air pattern	Wide
