Replaces open tube Ø 5 mm

Noise reduction 65 %

Air-/ cost savings 47 %

Silvent 700 M

Stationary VA-nozzle SV 700 M | 4,5N - SW14 - female R1/8

SILVENT 700 M: specially made entirely of stainless steel with aerodynamic slots to allow optimal utilization of compressed air while keeping the noise level to a minimum. Hexagonal design fits a 14 mm (0.55") wrench. Features smaller dimensions than other nozzles in SILVENTs 700 series and therefore the right choice in applications where clearance is a problem. Designed for applications where SILVENTs standard nozzles may display certain limitations, e.g. high ambient temperatures, hygienic requirements, mechanical wear, etc. Meets OSHA safety regulations and EU Machine Directive noise restrictions. Patented.

Technical data

Item number	717007
Air consumption	25 Nm³/h
Air connection	1/8 "
Sound	84 dB(A)
Blowing Power	4.2 N
Dimensions LxWxH	Ø 14 x 25 mm
Material	Stainless Steel
Air pattern	Concentrated
