

SW ESS090P ESD-Electric Screwdriver (DC 40V)

Push-Start - Shut-off - 3,0-9,0Nm - 750/1.000
1/min

swepro ESS090P - The brushless swepro electric screwdriver convinces with a low-noise and low-vibration, powerful and virtually maintenance-free electric motor. The corresponding power supply unit with 40V enables a 2-step speed adjustment, which allows precise screwing. The compact tool can be easily operated with one hand, as the direction switch is positioned directly on the ergonomically shaped handle. The screwdriver starts with the pressure release and switches off automatically when the set torque is reached. Thanks to ESD protection, screw connections to electronic components are possible without the risk of electrostatic discharge. Scope of delivery: 2 bits, torque protection cap, spiral spring for suspension. The telescopic arm ST-TAIS050SB (783641) is compatible with the electric screwdriver.

Technical data

Item number	680028
Weight	1,03 kg
Dimensions LxWxH	L: 303 mm
Free speed	750/1000 1/min
Torque Range	3,0 - 9,0 Nm
Direction of rotation	Right-Left
Trigger	Push
Standard deviation	+/-3%
