Silvent 007-P-250

PEEK nozzle 250 mm

SILVENT 007-P: with a PEEK nozzle that prevents unnecessary scratching. The PEEK nozzle has been specially developed for sensitive applications where expensive tools and machines absolutely may not be damaged. The nozzle is fitted on a flexible PA 12 pipe that provides additional protection against scratches caused by mechanical impact. PEEK is a unique plastic material with properties that meet the rigorous quality and safety requirements of, for example, the aerospace industry. It is extremely impact resistant and is capable of handling aggressive chemical environments, strong cutting fluids and temperatures of up to 260°C (500°F). The nozzle is designed with a central hole that generates a concentrated air stream. At the same time, the sound level is low and air consumption is reduced. The PEEK guns are available with three different extension pipe lengths. Fully complies with OSHA safety regulations and EU Machine Directive noise limitations.

Technical data

Item number	720337
Air consumption	14 Nm ³ /h
Sound	79 dB(A)
Blowing Power	2.4 N
Material	Peek
Air pattern	Concentrated
