Air-/ cost savings **49 %**

Pro One +

Safety air gun

The Pro One + is equipped with an extra powerful Multi-Laval nozzle that generates 60% more blowing power than the conventional Pro One while minimising the noise level. The Pro One is a robust tool designed for professional industrial use. The nozzle creates a concentrated airflow that minimises turbulence, allowing for a more targeted, effective blowing force. The model has a lightweight and slim design. The ergonomically shaped handle offers several different grip options, which makes work easier and reduces the risk of injury from one-sided strain. The Pro One is also LABS-free. It fulfils the noise regulations of the EU Machinery Directive and the safety regulations of OSHA.

Technical data

Item number	721220
Weight	0,145 kg
Air consumption	24 Nm ³ /h
Air connection	1/4 "
Sound	82 dB(A)
Blowing Power	4,3 N
Max. Operating pressure	0,7 MPa
Replaces open tube	5 mm
Max temperature	70 °C
Air pattern	Multi Laval
