

Replaces open tube **Ø7 mm**

Noise reduction **16 dB(A)**

Air blow gun 2053-X-SG-150

High blowing force

The Silvent 2053-X-SG-150 is a compressed air gun with the same features as the 2053-X-SG model, but with a 150 mm extension tube. Both models have a stainless steel nozzle with patented Multi-Laval technology, which produces a concentrated and low-turbulence air jet, enabling an effective blowing force. The blowing force is around three times higher than that of conventional compressed air guns, allowing you to work quickly and efficiently. Both versions have an ergonomic soft grip for increased comfort.

Technical data

Item number	725751
Weight	302 g
Air consumption	53 Nm³/h
Air connection	G 3/8 "
Sound	89 dB(A)
Blowing Power	10 N
Max. Operating pressure	0.7 MPa
Replaces open tube	Ø7 mm
Material	1.4404 Stainless Steel
Air pattern	Multi Laval
