

Replaces open tube **12 mm**

Noise reduction **78 %**

Air-/ cost savings **55 %**

Silvent 767-L

safety air gun | 20N

SILVENT 767-L is designed for working environments that require a high blowing power. The valve handle is robust and tailored to provide the operator with the best possible grip. Silvent's special technology makes it possible to combine a concentrated and strong stream of air with a low noise level. The unique design of the nozzle prevents compressed air from entering the bloodstream and injuring the operator. The blowing power is roughly 7 times stronger than a regular air gun.

Technical data

Item number	727467
Air consumption	120 Nm ³ /h
Sound	94 dB(A)
Blowing Power	20 N
Max. Operating pressure	0,7 MPa
Max temperature	70 °C
Air pattern	Laval
