

Silvent 390 W-S-500 air knife

SV 390 W-S-500 | VA air knife / 5 x SV 9002 W-S flat jet nozzles

SILVENT 390 W-S: is an energy-efficient, stainless steel air knife that generates an effective blowing force while keeping the sound level exceptionally low. Developed to cover wide production processes, this air knife helps minimize energy consumption. Compressed air is used optimally thanks to its unique design, which introduces an entirely new quality to blowing technology. The effect is achieved through the aerodynamic nozzle design that maximizes co-ejection, while each hole profile is shaped to make full use of the surrounding jet area. The recommended minimum blowing distance is 150 mm to ensure optimal surface coverage.

Technical data

Item number	733607
Weight	2500 g
Air consumption	140 Nm ³ /h
Air connection	G 3/4"
Sound	85 dB(A)
Blowing Power	27.5 N
Max. Operating pressure	1.0 MPa
Material	1.4404 Stainless Steel
