

Silvent 390 W-Z-1000 air knife

SV 390 W-Z - 1000 / VA air knife / 10 x SV 9002 W-Z flat jet nozzles

SILVENT 390 W-Z: is an energy-efficient air knife that generates extremely powerful and effective blowing force while maintaining exceptionally low noise levels. This air knife has been developed for a wide range of production processes and helps to minimise energy consumption. The compressed air is used optimally by the air knife and, thanks to its unique design, creates a new function in compressed air blowing technology. The aerodynamic nozzle design and each individual nozzle opening achieve maximum entrainment of the ambient air. Each nozzle profile is shaped at the openings to fully utilise the ambient air. The recommended minimum blowing distance is 150 mm to ensure optimal surface coverage.

Technical data

Item number	733613
Weight	3800 g
Air consumption	280 Nm ³ /h
Air connection	G 3/4"
Sound	88 dB(A)
Blowing Power	55.0 N
Max temperature	70 °C
Material	Zinc
Air pattern	Laval
