SW 3370 Micro grinder

3 mm collet / rotating solution

swepro SW 3370 – This grinder is suited for continuous operation also in confined spaces and can therefore be used for many grinding tasks. Due to its handy and short design, this high-speed tool is particularly suited for milling, grinding and de-burring tasks in tool and mould making as well as in metalworking. The tool is conveniently operated via a practical twist mechanism and has an exhaust via a noise reducing hose.
