SW OSC30H Central vacuum sander

3" / Ø 75 mm

swepro SW OSC30H - This all-purpose and low-noise 3" random orbital sander with its light weight composite enclosure is very convenient to use. Its non-slip and vibration damping handle and ergonomic design guarantees quick and controlled working, yielding a high surface quality. The tool has a velcro sanding disc and integrated dust extraction and is ideally suited in preparation for painting, for repair work or in industrial manufacture.
