## SW ABS610C Air belt sander

**12,7 x 610 mm / 18.000 1/min**

The SW ABS610C is a handy belt sander with a 0.9 HP motor, ideal for larger areas and more demanding sanding jobs. It offers versatile application possibilities and is equipped with a swivelling sanding arm that makes it easier to work in hard-to-reach areas. Like the SW ABS330C and SW ABS520C models, the SW ABS610C also has adjustable speed control, which allows the sanding speed to be adapted to the material in question.

The longer sanding length of 610 mm allows efficient processing of large-area materials and reduces the effort required compared to the smaller sanders in the series. An innovative clamping system ensures secure belt guidance and quick replacement of the sanding belt. The ergonomic composite housing supports fatigue-free working, while double noise reduction and safety features such as the operating lever with safety lock contribute to comfortable and safe operation.

### Technical data

Item number	789207
Weight	0,90 kg
Air consumption	470 l/min
Sound	85 dB(A)
Dimensions LxWxH	L= 470 mm
Max. Operating pressure	6,30 bar
Free speed	18.000 1/min
Sanding Pad	12,7 x 610 mm
Vibration	0,80 m/s <sup>2</sup>

Hose diameter (inside) 6,35 mm
