Vibration

1,8 m/s²

SW 66002 - saw (vibration)

swepro SW 66002 - The low-vibration saw with a stroke frequency of 9,500 hpm is ideal for body work and sheet metal work. Based on its 360 ° swivel joint air inlet the SW 66002 has very good handling. Saw blades with 18T, 24T and 32T are included in delivery. An adjustable safety bar secures and define the application.

Technical data

Item number	789602
Weight	0,720 kg
Air consumption	0,170 m ³ /min
Sound	83 dB(A)
Dimensions LxWxH	L: 238 mm
Free speed	9500 1/min
Trigger	lever
Connection	1/4 BSPT
