Non-Shut-Off (13 to 26Nm) 6.800 1/min -
6mm HEX type

swepro SW ISSN26 - The robust impulse tool straight type with a torque range of 13 to 26 Nm is ideally suited for precise screw connections with high repetition accuracy in industrial assembly. The high speed of operation and the quality of the fittings increase productivity in all areas. The non-slip behavior of the tool as well as the low noise and vibration levels reduce health risks for the user to a minimum. The low weight, the isolated handle and the very good balance of the tool allow fatigue-free working, even in confined areas.
