SI SNG500 antistatic nozzle gun

Ø 27,5mm / 5m high-voltage-cable

The SI SNG500 is an antistatic gun. The antistatic gun has a compact design, meaning it is particularly

suitable for use in difficult to reach places, and areas with

limited access. The compressed air means high distribution of

ions is attained. Worthy of particular mention here is usability of

the antistatic gun for tackling static charging for 3-dimensional

objects. The SI SN antistatic air nozzle has five needle-like ion

tips. Two standard cable lengths

(5.0 and 5.0 m) are available at short notice.

Technical data

Item number	940070
Weight	0,850 kg
Air connection	4 mm
Material	Aluminium
Trigger	Trigger-type
