SW SH1050PUB Spiral hose

SW SH1050PUB is a spiral hose of the latest generation. It is reinforced with a nylon net. Despite the reinforcement, the hose is very flexible. Due to the small windings the hose offers an optimal handling, even in small spaces. Kink protection on both sides and high-quality 360° swivel connections round off the overall concept of the new PU hose. The spiral hose is available in the following lengths: 2,4m/3,6m/5,0m./7,5m.

Technische data

Artikel nummer	769605
Gewicht	0,4 kg
max. Bedrijfdruk	15 bar
Bedrijfsdetectiewijdte va	-20° / +60°
