SW 1183 File

Stroke frequency: 35000 hpm

swepro SW 1183 - The industry file is very light and durable, has a very high quality machined metal casing and is easy to use with a practical rotating release. SW 1183 is suitable for all applications and fits standard flat file blades by the variable intake filing. The stroke frequency is 35,000hpm and the stroke length is 1-2mm. Through its rear exhaust hose there is no turbulence in the application area of the file.

Technical data

Item number	789182
Weight	0,240 kg
Dimensions LxWxH	L: 170 mm
Air consumption	0,220 m ³ /min
Free speed	35000 1/min
Trigger	Roll
Connection	1/4 BSPT
