Max. torque **3428 Nm**

SW 5830P Air impact Wrench

1

swepro SW 5830P – Its light weight composite housing allows this well-balanced and practical 1" impact wrench pistol type to be used effortlessly in many sectors of industry. This tool is for two-hand use, due to its particularly compact design and its side handle. The tool convinces through its very high max. torque, despite its very low own weight. Recommended working range: up to M36 – max. torque 3.428 Nm.
