

Product test possible!

Max. torque **3428 Nm**

SW 5830-6 Air impact wrench

1

swepro SW 5830-6 - Its light weight composite housing allows this well-balanced and practical 1" impact wrench straight-type to be used effortlessly in many sectors of industry. This tool is for two-hand use, due to its particularly compact design and its side handle. The tool convinces through its very high max. torque, despite its very low own weight. Recommended working range: up to M36 - max. torque 3.428 Nm.
