Silvent 2005

Wide nozzle

SILVENT 2005: an aluminum nozzle with aerodynamic slots. Produces a strong, quiet and effective air stream. The blowing force is approx. 5 times that of SILVENTs 209 and 511 nozzles. Despite its powerful force, both the sound level and energy consumption are low in comparison with 10 mm (3/8'') open pipe blowing. Fully complies with EU Machine Directive noise limitations and OSHA safety regulations. Patented.
