SW SH1024PUB Spiral Hose

PU Braid-Coil Hose, Ø10x6,5mm, L=2,4m, Ø33mm, AG 1/4" BSP(T)

SW SH1024PUB is a spiral hose of the latest generation. It is reinforced with a nylon net. Despite the reinforcement, the hose is very flexible. Due to the small windings the hose offers optimal handling, even in small spaces. Kink protection on both sides and high-quality 360° rotating connections round off the overall concept of the new PU hose. The spiral hose is available in the following lengths: 2.4m/3.6m/5.0m/7.5m.

Spécifications techniques

Numéro de produit	769602
Poids	0,235 kg
Pression maximale	15 bar
Température en fonction	-20° / +60°
Ø	55 mm
Ø	10 mm
Ø	6,5 mm
Connexion	1/4"
Matériau	Polyurethan (PU)
