SW 38GE Extended Air Die Grinder

6 mm collet / rotating-start type

swepro SW 38GE - This powerful and extremely robust extended air die grinder ensures easy accessibility of hard to reach areas and is ideal for surface machining of steel and cast iron, deburring and for cleaning welds. Due to its metal case it finds in many industrial use, e.g. in foundries, tool manufacturing and machinery. The grinder can be switched on with a comfortable rotating mechanism and keeps the exhaust air away from the workplace.

Technical data

Item number	783730
Dimensions LxWxH	L: 295 mm
Weight	0,800 kg
Air consumption	0,300 m ³ /min
Free speed	20000 1/min
Collet	6 mm
Vibration	4,6 m/s ²
Direction of rotation	Right
Exhaust air	rear
Connection	1/8 BSPT
